Echò

ENVIRONMENTAL FRIENDLY COSMETICS

Allegrini business philosophy is based on creating products that are not only eco-compatible and sustainable but also effective. All our products are formulated and manufactured by strictly following the EEC rules. Everything is microbiologically tested both internally and by the independent CQ laboratory which is recognized by the Italian Department of Health.

Allegrini Ecolabel Echò cosmetics are cosmetics obtained:

- > from ingredients more and more environmental friendly
- > without using OGM
- > without ionizing radiation use
- > with no animal experimentations or tests
- > by privileging vegetable origin raw materials and essences

Allegrini has recently joined I.C.E.A. : the Institute for Ethical and Environmental Certification on behalf of A.I.A.B..

Seriousness, passion and care are at the base of our job and they do let us gain, through the years, confidence and collaboration of important European companies, specialized in courtesy line product distribution and trading.
